

MANAGE-IT CRP Module

Introduction

Save countless hours with the Manage-IT CRP module. If your portfolio consists of properties in Minnesota where a certificate of rent paid is required by the local tax authority then Manage-IT CRP Module is for you. The CRP module is the best tool for creating tenant CRP forms from your property management software. From its easy to set up architecture to its intuitive design you will be up and running in no time. Expand the possibilities and functions of your Manage-IT software with the Manage-IT CRP Module. You will notice a difference in staff productivity right away. The CRP Module works with all versions of your Manage-IT software from the economical Manage-IT pro version to the mid ranged Manage-IT Advanced to the high end SQL version Manage-IT Enterprise.

Powerful CRP Distribution Software

The Manage-IT CRP Module will be a welcomed addition to your Manage-IT software line, with powerful features that make creating certificates of rent paid a breeze. The CRP module allows users to set where and what will be printed on the CRP form. A user can elect to create a one time CRP form or create a whole run of certificate of rent paid forms. The Manage-IT CRP module is sure to save you countless hours in creating the appropriate CRP forms. And because of its open design as local forms change so does your software. Simply put there is no better way to create the appropriate CRP tax forms than the Manage-IT certificate of rent paid module. The software does everything for you, all you need to do is sign seal and deliver it's that simple. Come see why more people are turning to Manage-IT for their property management software needs. At Logicbuilt we were constantly building integration to make your job easier.

CRP Module Overview

- Create one time or batch CRP forms
- Change the location of all printed information on the form
- Dynamically choose which GL accounts the module will use
- Print additional memo information on the CRP form
- Ability to choose who will be issuing the CRP form.
- The Module keeps track of all appropriate percentages
- Ability to use either tenants address or the unit address
